DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/7/10 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gianni Minutoli on 6/10/10.

The application has been amended as follows:

Please amend the claims as follows:

In claim 27:

Delete on lines 1-2, the phrase "or the external right-angle bend at the distal end".

Change on line 2, "effect" to —effects—.

In claim 28:

Delete on lines 1-2, the phrase "or the external right-angle bend".

Change on line 2, "comprise" to --comprises--.

In claim 39:

Amend line 6 from "a first insulating member end extending past said first end of said supply pipe" to --a first insulating member end adapted to be displaceable so as to extend past said first end of said supply pipe--.

Change on line 10, "an cap end" to --a cap end--.

In claim 52:

Replace lines 9-14 with --an insulating tube surrounding a portion of the pipe, the tube surrounding the portion of the pipe extending from the annular protrusion of the cap past the second cap end, the tube having an outwardly extending collar on a tube end most proximate to the annular protrusion of the cap and within the cylindrical recess of the cap, wherein the tube is displaceable along a longitudinal axis of the pipe, a path of displacement of the tube end with the collar being only between the annular protrusion of the cap and the inwardly projecting edge of the cap; and--

Change on line 17, "and applicator supplier electric current" to --and the applicator supplies electric current--.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest an applicator for an electrosurgical instrument defined by the combination of elements as recited in independent claims 20, 39 and 52, including a cutting electrode driven by and connected to a gas and high frequency current supply pipe, an insulating cap having an annular protrusion which contacts the supply pipe and an inwardly projecting edge, a casing tube longitudinally movable relative to the cutting electrode so as to cover and expose the electrode, the casing tube displacement path being limited by the annular protrusion of the cap and the inwardly projecting edge, and a gas-sealing inhibiting device located between an inside of the casing tube and an outside of the current supply pipe so as to frictionally fix the longitudinal movement of the casing tube relative to the supply pipe. Farin (WO/98/01075) teaches an applicator with the supply pipe, casing tube and cap, but fails to teach the cap having a displacement limited by an annular protrusion and inwardly projecting edge, and further fails to teach a gas sealing element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to VICTORIA W. CHEN whose telephone number is (571)272-3356. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
